

HALL B - ORAL PRESENTATIONS

Time	Presenter	Oral Presentation Title
15:00-15:10	Fideline Tchuenbou-Magaia	Biotechnology Shaping Tomorrow's Circular and Sustainable Packaging
15:10-15:20	Stanimira Angelova	Modulating high-molecular glucansucrase in search of improved product profile for novel prebiotics
15:20-15:30	Katya Peycheva	From Flowers to Residual Biomass: Nutritional and Chemical Analysis of Helichrysum italicum
15:30-15:40	Ilhaam Ayaz Durrani	S100 calcium binding protein A8 in adipose-bone axis mediated immuno-metabolic crosstalk in breast cancer
15:40-15:50	Attya Bhatti	Evaluation of antioxidant, antidiabetic, anti-inflammatory and toxicity potential of Cestrum diurnum L. Leaf Extract in a diabetic Mouse Model
15:50-16:00	Giulia Giuffredi	Proteomic maturation of articular cartilage reveals shared pathways with osteoarthritis
16:00-16:10	Halil Şenol	Synthesis, Biological Activity and Development of Elastic Liposomal Formulations of 4-(2,4-Dichlorobenzamido)-Benzohydrazide Derivatives as Potent Cholinesterase Inhibitors
16:10-16:20	Dimitar Dachev	Clinical Evaluation Of The Pediatric Trauma Support System In Pediatric Trauma Patients
16:20-16:30	Behich Koyutourk	High-risk human papillomavirus genotypes and vaginal microbiota alterations in women from Northern Cyprus
