

POSTER PRESENTATIONS

Presenter	Poster Presentation Title
Lili Dobрева	Probiotic potential of Bulgarian lactic acid bacteria for functional food applications
Martina Torricelli	Assessment of diets integrated with olive oil polyphenols in rainbow trout: gene expression study set-up and optimization
Rositsa Stancheva	Comparative analysis of the antioxidant activity of extracts from three Black Sea bivalves
Florentina Daraban Bocanet	Monitorization of wild boars circulation in endemic area of African swine fever disease in north-eastern Romania
Giorgi Gogitidze	Attitudes Toward AI-Based Personalized Wellness Services in the Context of Promoting Preventive Health: A Case Study of the Adjara
Paulo Favas	Accumulation of uranium by aquatic plants from Southern Portugal: Phytofiltration potential of contaminated water
Nino Kedelidze	Determination of the content of some heavy metals in walnut (<i>Juglans Regia</i>) fruits in various villages of mountainous Adjara
Radoslav Abrashev	Probiotic and postbiotic lactic acid bacteria from Bulgarian dairy products: antioxidant activity
Ralitsa Nikolova	Distinct Gut Microbiome Signatures in Patients with Myalgic Encephalomyelitis/Chronic Fatigue Syndrome
Anca Marian Zisopol	Endoparasite infections in domestic cats in Southern Romania: preliminary epidemiological data from a coprological assessment
Milena Yancheva Rupcheva	Accelerated Antimicrobial Susceptibility Testing in Patients with UTIs: A Comparative Study of the Laser Light Scattering vs. Disk Diffusion Method
Kristiyana Vitanova	Association of Common Cardiovascular Genetic Variants with Coronary Artery Disease in a Bulgarian Case–Control Cohort
Adrián Sapiña-Solano	Effect of Salinity and Drought on <i>Spartina patens</i> in Mediterranean Coastal Wetlands
Elena Poryazova	The role of Artificial Intelligence in training medical students and pathology residents
Guillaume Rouire	Nanostructure of lipid bilayers from simultaneous ellipsometry imaging and QCM-D
Radulea Alexandros	Blood hematology and biochemical monitoring in show jumping horses
Fernoagă Cristina	Prognostic assessment of congenital and acquired cervical spinal lesions in dogs
Buscă Mara Cătălina	Levetiracetam as a First Choice Treatment In Canine Neuropathology: Findings From a Case Series

POSTER PRESENTATIONS

Presenter	Poster Presentation Title
Cătălin Nicolae	Surgical management of first compartment forestomach impaction caused by corn ingestion in an alpaca
Dumitrescu (Teodorescu) Dana- Maria	Clinical and paraclinical research in turkey chicks raised in a semi-intensive system
Georgi Daskalov	Routine Usage of Indocyanine Green Fluorescence by Younger Surgeons in Patients with Acute and Chronic Cholecystitis During Laparoscopic Cholecystectomy
Andrei-Mario Codreanu	Ultrasound-Guided Punctures and Ultrasonography Accuracy in Prostatic Masses/Collections – Causes Of Urinary Retention – in Dogs
Turbatu Raluca Mihaela	Clinical evaluation of oral cavity diseases in domestic cats: a study of 10 cases
Diana-Larisa Ancuța	Effects of antibiotic and corticosteroid therapy on hypertrophic scar development in a rabbit ear experimental model
Kremena Yordanova	From biofilms to biotherapeutics: harnessing Streptococcus salivarius bacteriocins for next-gen oral health
Vasil Yotov	Advances in the Separation and Purification of Optically Pure Enantiomers by Chiral Chromatography
Eleonora Kovacheva	Effect of Thrombolytic Therapy on Mitochondrial Respiration and HIF-1 α Levels in Patients with Ischemic Stroke
D. Dachev	Pediatric Trauma Severity Assessment and Prognosis Using Automated Scoring Systems
Antoaneta Fasova	Application of CT scanning in Forensic education
Andra-Elena Nica	Impact of ejaculation frequency on semen quality in dogs: Comparison of 24 hour and 96 hour collection Intervals
Maria Kazakova	Lipid Metabolism and Inflammation-Related Biomolecules Are Associated with Clinical Severity in Autism Spectrum Disorder
Elena Poryazova	Digital Whole-Slide Imaging in pathology education: scanned histological slides as a platform for Electronic Learning
Neli Doneva	HPV-Negative Cervical LSIL Cytology Associated with Atypical Endometrial Hyperplasia Exhibiting PTEN/PAX2 Loss and High AMHRII Expression: A Complex Case
Keti Tokmakova	Artificial Intelligence-Assisted Imaging Interpretation in Extremity and Pelvic Trauma: Implications for Orthopedic Surgical Decision-Making
Keti Tokmakova	Impact of AI-Assisted Radiographic Interpretation on Orthopedic Surgeons' Workflow and Decision Confidence in Acute Polytrauma Care: A Cross-Sectional Study
Pelin Kiraz	Catechin-rich hazelnut green husk extract: antimicrobial activity and DNA gyrase interaction

POSTER PRESENTATIONS

Presenter	Poster Presentation Title
Peter Pristas	Ancient Salt, Modern Solutions: Biotechnological Potential of Halophiles from Miocene Deposits in Central Europe
Štefánia Hrončeková	Optimisation of cultivation media for controlled recombinant enzyme expression and enhanced ϵ -caprolactone production
Oana Tanase	Efficiency and efficacy of video monitoring of wild boars' motion in endemic area of african swine fever in Romania
Mihaela Anca Dascalu	The Impact of African Swine Fever on Domestic Pigs and Wild Boar Populations in Romani
Adela Sinani	Screening toxicity in marine samples with different cell-sensor methodologies-Towards improved accuracy
Nadiel Cadri	Chromatin condensation, survival rate and morphological evidence of AL-PCD at fine root cells of <i>T.aestivum</i> under stress
